

Recommendation letter

To whom it may concern,

It is my distinct pleasure to write a letter for Gauri Gupta, who is a student at the Indian Institute of Technology Delhi (IIT Delhi). Gauri has undergone the Internship program at Nokia , Gurgaon, India for a period of 6 months working on the project - Nokia Networks Assessment.

B-9, Sector – 62

Noida – 201301, U.P., India

Corp Identity No.

U72900DL2006PTC155149

During her internship at Nokia, Gauri displayed great talents in technical applications of Computer Vision and Data Science such as optical character recognition, implementing various data management techniques to interpret and analyze data, formatting information in excel spreadsheets, parsing data from macro-enabled workbooks, among others. She handled every task with utmost sincerity and responsibility. She also gave her innovative thoughts to the project and has shown the ability to think from a non-conventional point of view.

It is not just her technical skills that impress me but also her amazingly positive attitude and eagerness to stick tightly to deadlines. Her can-do attitude and team-building skills were also necessary and valued not just by me, but by others too, who often relied on her to get the job done.

Gauri has a good grasping power and could learn and work very fast on any new programming language and environments. She is extremely polite and a very pleasant person. Her spoken and written English communication skills are very good.

In summary, I am very happy to have had the chance to work with Gauri Gupta, and I wish her all the best for her future. Please feel free to contact me for any further information.
